

How to Specify FLYIN

Supply and mounting of FLYIN Architectural Ceiling Filter Return. Dimension 24x24 inches. Constructed from galvanized steel plenum and aluminum 45-degree blades return grille face. The hinged face is removable and secured by magnetic locks. The side duct connection is completely hidden and invisible from the face. The 2" filter is secured by 4 spring clips and positioned in a way to minimize its visibility from the face. Powder coated with the same or different color on the inside and on the outside. Plenum must have earthquake tabs to secure the product to the building structure. Shall be supplied 2" MERV-9 filter. By EffectiV HVAC Inc.
